

innWave

The Vertical Vibration Machine replicates random, vertical vibrations from personalized profiles, standards and recorded data from real transportation routes. Sine and high frequency options are available for every model or custom design.

Industries

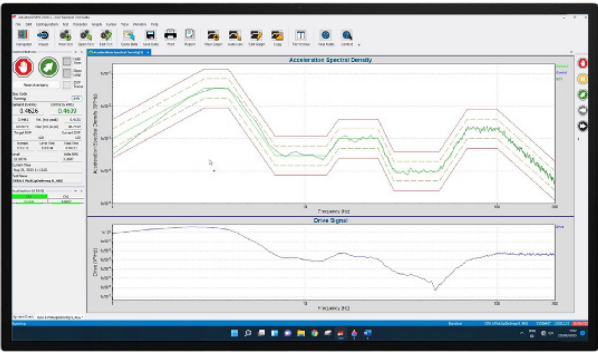

Image: innWave Vibration Controller Software

Vibration Tests supported

- EN, ASTM, ISTA Procedures, MIL-STD, and ISO.
- For specific standards contact sales.

Model	Max. Load Weight		Table Size		Stroke		Frequency SF HF Hz
	kg	lbs	mm	in	mm	in

			1850 x 1850	73 x 73			200

Technical specifications

- Pneumatic and electric machine
- Specialized foundation not required
- Two vibration insolation systems
- Sine models available
- Intuitive control software
- Can be installed inside a climatic chamber
- Reproduces random vibrations and re-corded PSD, with standard testing PSD included.

Optional accessories

- innWave
 - Pitch & Roll Module
- innRecord
- innSoft
- innVision
 - innVision ST
