

innWave

The patented technology of our Pitch & Roll Module simulates pitch and roll movements while installed on a vertical vibration table. Transform any vertical vibration table into an innovative testing system that uses 3 axes (vertical Pitch and Roll).

Industries

Technical specifications

- Servo hydraulic system
- P&R bandwidth 25Hz
- Vertical bandwidth 200Hz
- Compatible with any vibration system manufacturer
- Independent module controller
- More realistic testing than vertical vibration alone
- Extra lateral rigidity; reduces cross talking effect
- Single-platform fixture
- Simplifies installation and adjustment.

Model	Max. Load Weight	
	kg	lbs
PR500	500	1102
PR750	750	1653
PR1000	1000	2205
PR1500	1500	3307

Our engineering team will perform a comprehensive assessment to precisely integrate the module with the client's existing machine.
